Career Summary

Business-minded Web Developer and Results-driven Project Manager with hands-on experience leading end-to-end digital projects across SMEs and B2B environments. I turn websites into growth engines by improving visibility, capturing qualified leads, and ensuring reliable day-to-day performance. Proven track record of launching clean, mobile-first websites, reducing friction in user journeys, and converting forms into real enquiries, while strengthening security, uptime, and maintainability behind the scenes.

Skilled in requirements gathering, scope definition, WBS creation, timeline planning, stakeholder communication, and managing development workflows from initiation to deployment. Known for keeping projects moving, coordinating multi-disciplinary teams, maintaining delivery momentum, and providing structured progress updates with transparent change management so projects land on time and continue improving after launch.

Work Experience

Project Assistant and General worker
Jan 2020 - Present

Solly's Handyman Services

- **Client Consultation & Discovery Meetings:** Conducted detailed consultations with clients to assess project needs, providing tailored solutions and ensuring clear communication.
- **Quotation & Proposal Development:** Created accurate and comprehensive quotations based on client requirements, including cost estimates for materials and labor.
- **Vendor Coordination & Material Inspections:** Worked closely with vendors to source quality materials; conducted thorough inspections of materials to ensure adherence to project specifications and standards.
- **Cabinetry Installation**: Assisted in the installation of cabinetry, ensuring precision in measurements and craftsmanship to meet client specifications.
- **Tool & Equipment Management**: Prepared and organized tools and materials for workers, ensuring all necessary equipment is available and in good condition to maintain efficiency on site.
- **Project Finishing & Quality Control**: Performed final touches on completed jobs, ensuring all work meets quality standards before project sign-off.
- **Troubleshooting & On-Site Problem Solving**: Addressed and resolved on-site issues quickly and efficiently, maintaining smooth workflow and minimizing delays.

Web & Web App Developer
2025 Mar – 2025 Sep

Smile Property (Pty) Ltd
